

Presenting exclusivity in sets of two.

Span group is a partnership between the Gujarat group of companies and the Rajendra Group of companies, which has been around for three decades. With a firm foothold in the realty sector, the group has fostered many development, redevelopment and renovation projects.

The entity is made up of like minded people who share a common vision and goal - that of being a name to reckon with in the realty industry. The key personnel manning the helm of the firm have at their disposal perhaps the most important thing of all - vast and varied expertise and experience.

Having garnered much acclaim through their fondness for quality, choice of location and timely completion, the group looks to the future with a strong sense of achievement.

Imagination is the first step
towards creation.
