Hyderabad - The Global City

Buoyed by the rapid business and economic growth and world class infrastructure projects announced, Hyderabad has truly arrived on the global scene. A global metro city is being created by the Government with the declaration of Greater Hyderabad along the lines of NCR (National Capital Region of Delhi), thus offering people excellent investment opportunity.

Hyderabad is home to many Fortune 500 companies like Microsoft, HP, Motorola, Pepsi and many other major infrastructure & construction companies. This has made Hyderabad a great investment hub at international level and has led to the strong emergence of real estate sector.

Hyderabad is poised to become a world class city with many world class infrastructure projects unfolding in its lap. Two most coveted projects are Hyderabad International Airport and Outer Ring Road. While the International Airport is already making waves, the Outer Ring Road project, when fully operational in a few years time will dramatically change the landscape of Hyderabad city. Many new townships and special projects will form beyond the Outer Ring Road belt and it will then become the lifeline of Greater Hyderabad.

So, the right time has come now to invest in Hyderabad.
