A LOCATION OF CONVENIENCE

Hosur is the part of National Highway 7 which connects metropolis Bangalore and business town Hosur. It is a four to eight-lane access controlled highway.

The micro-markets that have emerged in this region are Bommanahalli, Hosa Road, Kudlu gate Junction. Multiple residential projects are under developmental stage around Hosur Road.

The development of the Harohalli industrial belt between Kanakapura Road and Hosur Road is also an added advantage for this region. The infrastructure initiatives have provided impetus to the residential market growth in peripheral areas of Hosur Road and Electronic City in a large way.
