Siddha believes a house is not mere bricks and mortar. Nor is it a place where you live, simply enclosed within four walls. Siddha believes that a home is a special place that helps you discover the real you. And your home is your life's focal point, beckoning you time and again. Since its inception in 1986, Siddha has created homes and workspaces with a difference in order to make good living affordable in Kolkata and Jaipur. This good work has recently spread to Bengaluru and Mumbai. Siddha's perseverance and passion for quality homes drive it forward with every new project. Led by Group Chairman Chandra Prakash Jain and Group Managing Director Sanjay Jain, Siddha creates and sells high-quality housing in India. By combining upmarket design, superior materials and excellence in construction, Siddha delivers comfortable homes at convenient prices. Within committed time frames, of course.

Architects and Legal advisors

Architects

Agrawal and Agrawal led by Jay Prakash Agrawal, the renowned architect, ranks among eastern India's leading architectural practitioners. The firm is renowned for its residential apartments and commercial complexes; townships; IT infrastructure complexes; malls; hotels; institutional and leisure projects.

Legal Advisors

Saha and Ray, Advocates, Kolkata, is a premier law firm specialising in real estate and property laws. Armed with international affiliations and global terms of reference, the firm is headed by Avik Saha and Jayati Ray.

Siddha Town Madhyamgram is planned and designed according to the 'Green Homes' norms of the Indian Green Building Council's (IGBC) Silver Rating System. Siddha Town Madhyamgram is also registered as a 'Green Homes' project by the Indian Green Building Council (IGBC), exclusively for the residential sector.

A few benefits of the Green Building norms are—

- Reduced energy usage and costs
- Reduced water usage through low flow fixtures
- Sewage treatment, dual plumbing and water recycling
- Use of recycled materials such as fly ash in cement and brickwork
- Native and drought tolerant species planted as part of the landscape
- Periodic indoor air quality audits conducted during the construction phase
- Improved indoor air quality through the usage of low VOC paints, adhesives and eco-friendly chemicals
- High window-to-wall ratio guaranteeing better views and cross ventilation
- Waste management and recycling facilities in place
- Reduced greenhouse gas emissions and overall carbon footprint
