# ARCHITECTURAL INSPIRATION

---

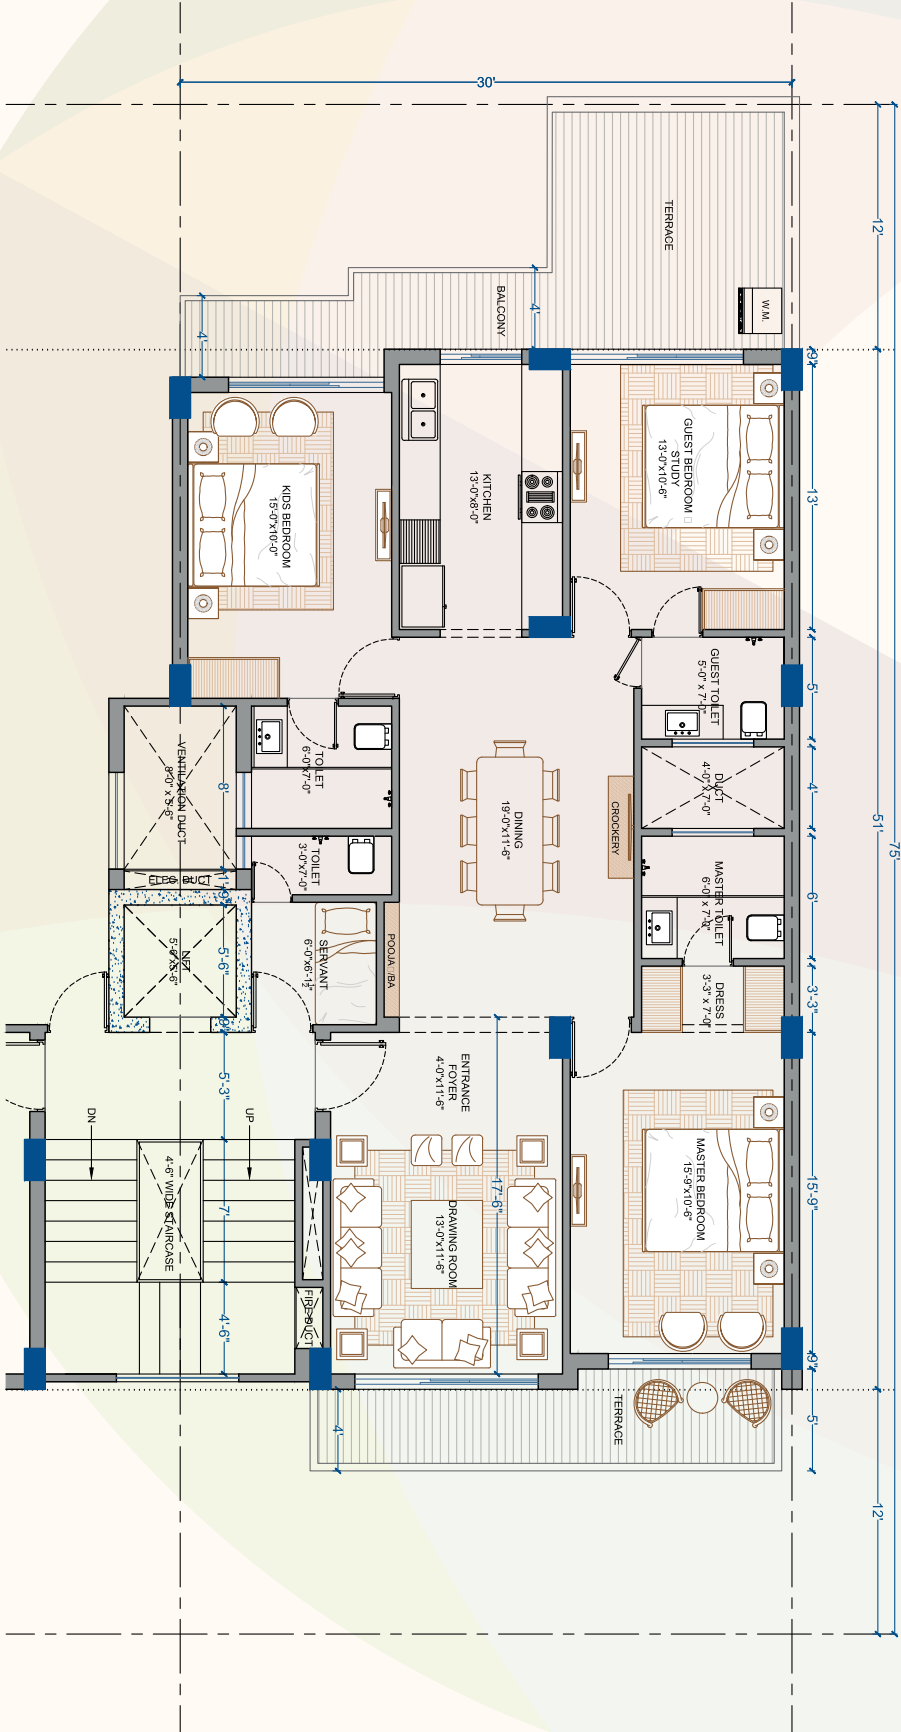

The architecture is inspired from rich European building traditions that incorporates the best influences of Romanesque, Renaissance and neo-classical elements. There is an acute sense of aesthetics matched by a powerful current of functionality. It is like bringing a bit of old golden Europe on the Indian soil for the modern times.

The project is perfectly located on the outermost row of sectors of Mohali with direct accessibility to all the major landmarks of the city. The surroundings are well planned and there is abundance of greenery and stretches of openness. The famed Wave Estate and some other projects are in immediate vicinity. The area is coming up as the most promising residential enclaves of the tricity and will be home to hundreds of privileged high net worth income group people.

Nature is not a place to visit.  
It is home.
