Before Toll
Ajmer Road Jaipur

We believe a house is not mere bricks and mortar. Neither is it a place where you just live encased in four walls. We believe in homes. The special place that helps you discover the real you. Our aim is to partner you in this art of homemaking.

Since inception in 1986, we have been creating home and workspaces with a difference, to make good living affordable in Kolkata, Jaipur, Mumbai and now in Bangalore as well.

We create and sell high-quality housing in India. We dovetail upmarket design, superior materials and excellence in construction to deliver, at the least, comfortable homes at convenient prices, within the committed time frames.
