EXPLORING THE RELATIONSHIP BETWEEN INFRASTRUCTURE DEVELOPMENT & LAND APPRECIATION.

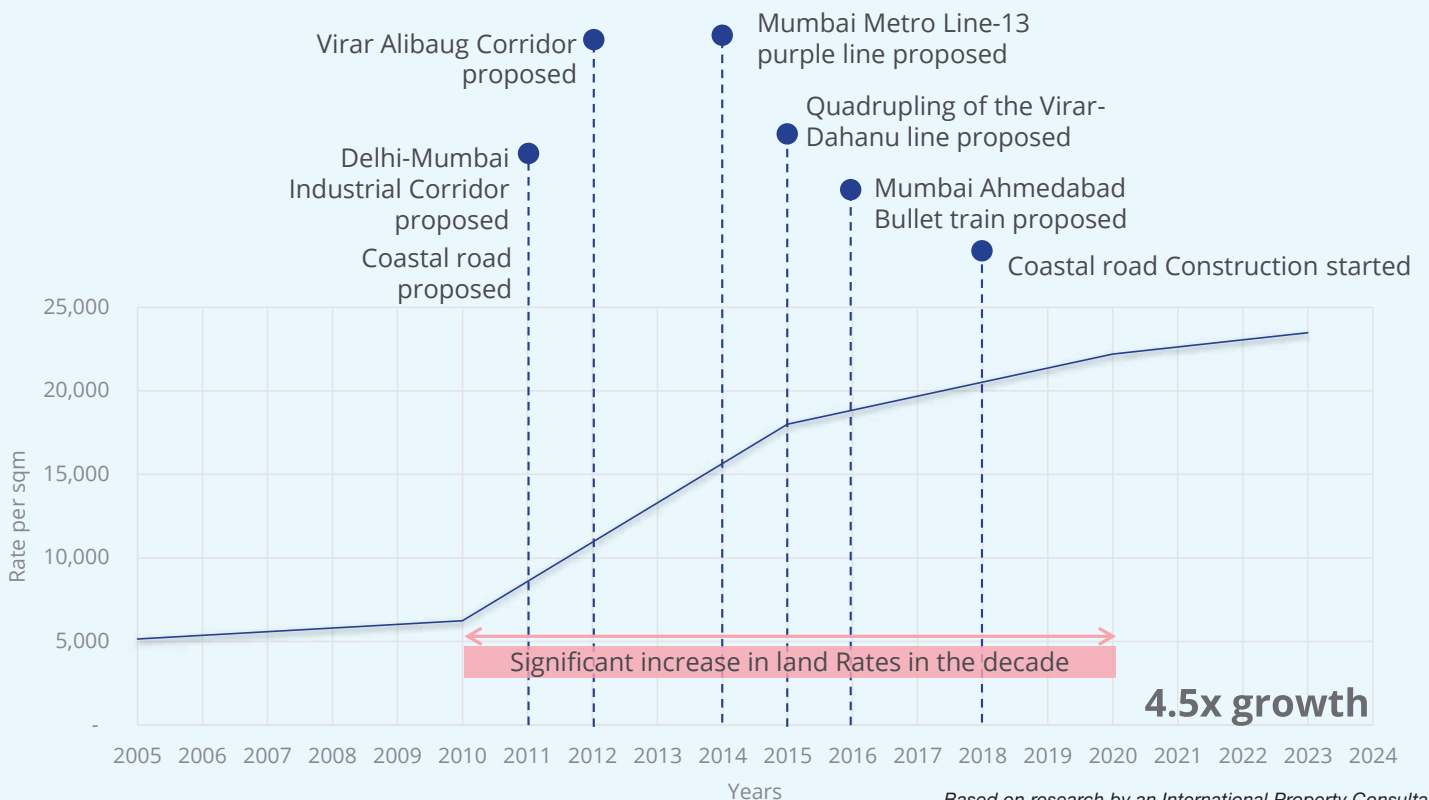

A Decade-Long Study of Select Micro Markets

MUMBAI - VASAI VIRAR

Vasai-Virar is an agglomeration of four previously governed municipal councils i.e. Vasai, Virar, Nala Sopara, and Navghar-Manikpur and a few villages, to form the Vasai-Virar twin city, and it immediately became one of the most-populous urban areas in the state.

Following 2010, the market experienced rapid expansion, with various infrastructure projects ranging from coastal road to metro to multi-modal corridors proposed and underway, raising land prices in the region.

MUMBAI - KALYAN DOMBIVALI

KDMC is witnessing the development of new residential and commercial projects at a very rapid pace. The land market has recently witnessed a boom, primarily due to the increasing prices in Mumbai suburbs and growing demand for affordable housing in Mumbai.

- The market had experienced a stagnant bracket before 2010 due to lack of accessibility and low level of infrastructure.
- The Smart City Mission gave a boost to the city and the outskirts along with regional infrastructural development.

- Mumbai Metro Line 5 & 12 orange line proposed
- Airoli Katinaka Tunnel construction started
- Identified as one of the smart cities
- Mumbai Ahmedabad Bullet train proposed

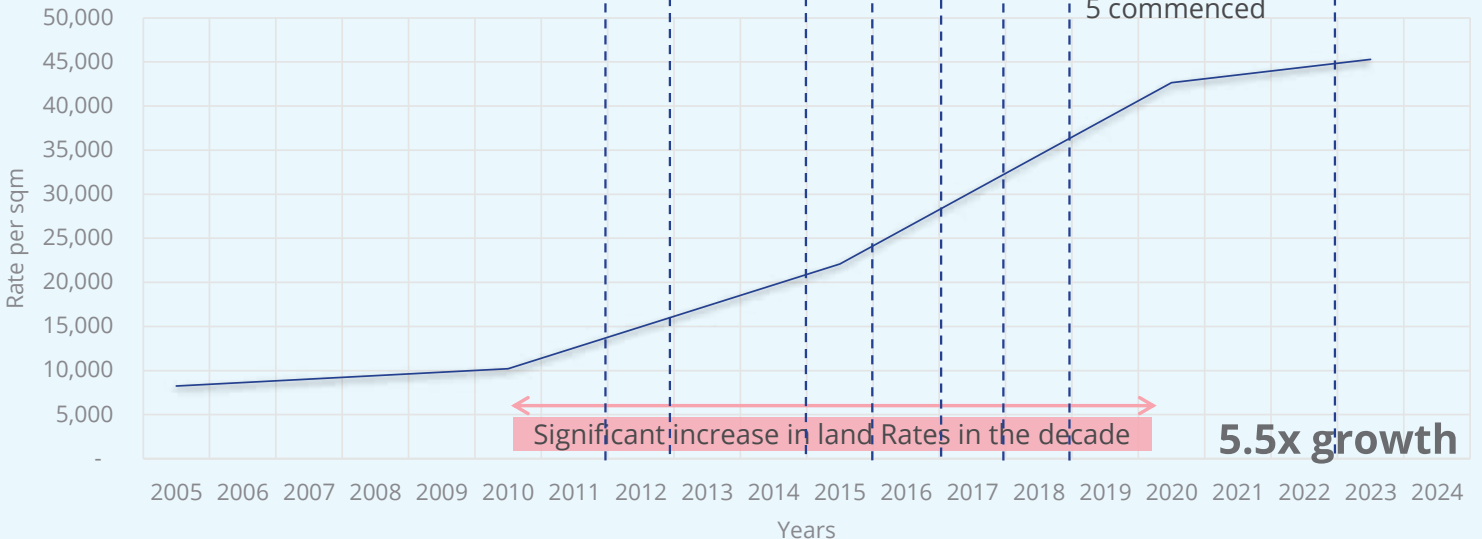

Virar Alibaug Corridor proposed

Delhi-Mumbai Industrial Corridor proposed

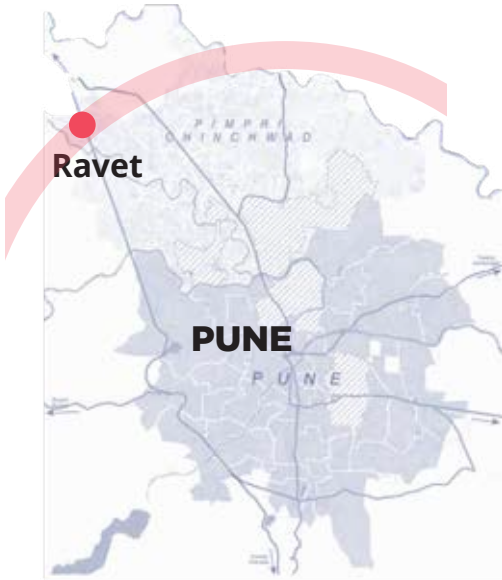

Motagaon Mankoli Bridge Construction started
Kalayn Ring road proposed

Airoli-Kalwa elevated rail corridor proposed

Metro line 5 commenced

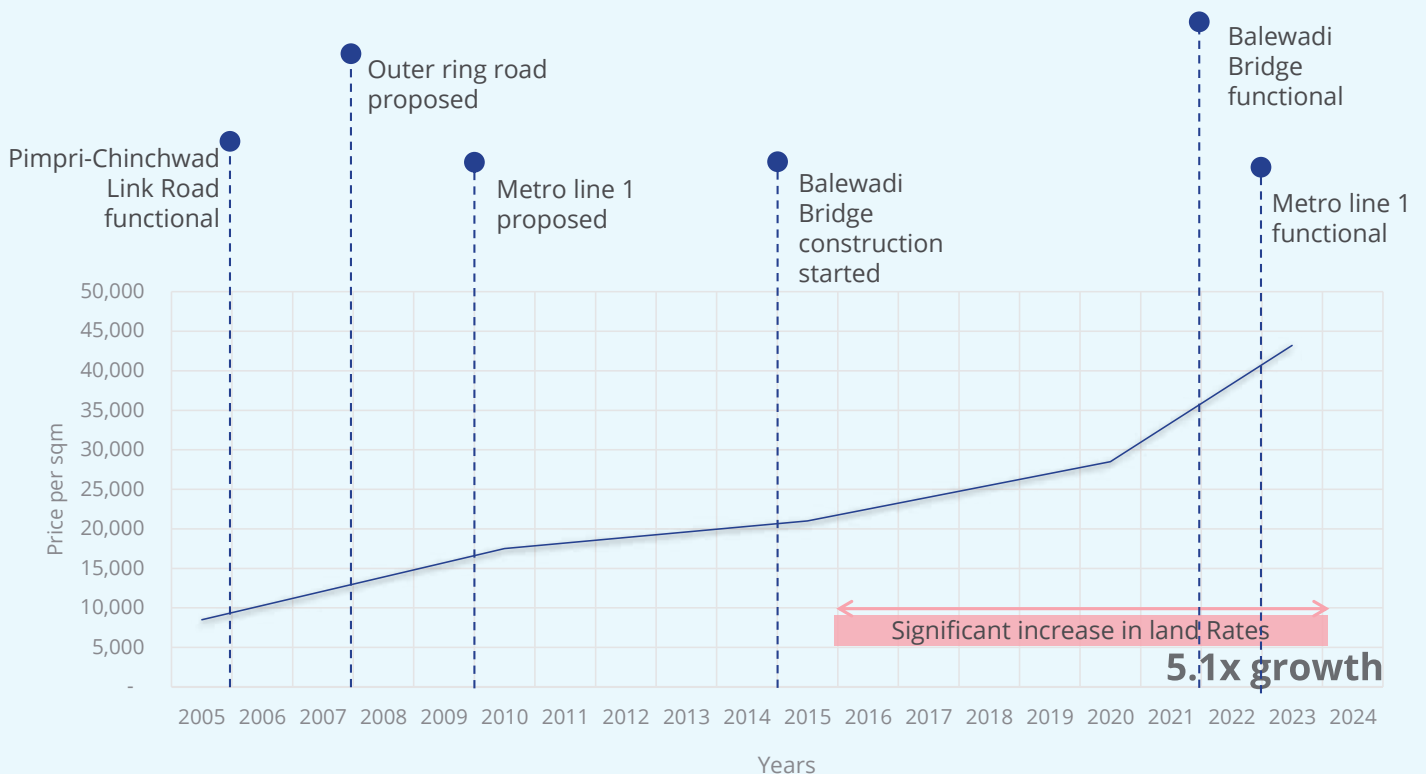

PUNE - RAVET

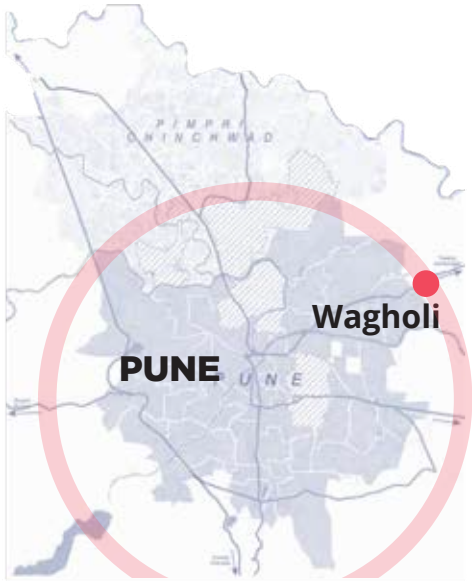

Ravet is one of the rapidly developing suburban areas of Pune, which is located close to the industrial zones and the IT hubs of Pune. The area has good civic amenities and is very well-connected to the other parts of the greater city.

- Ravet has seen a significant growth since 2015, as major infrastructure projects were started, with the metro developed upto Nigdi and Wakad, which are adjacent markets to Ravet.
- Also, it being on the Mumbai-Pune highway acts as an entry point to the city, with significant residential developments.
- The region acts as an affordable alternative to the rising prices in the city.

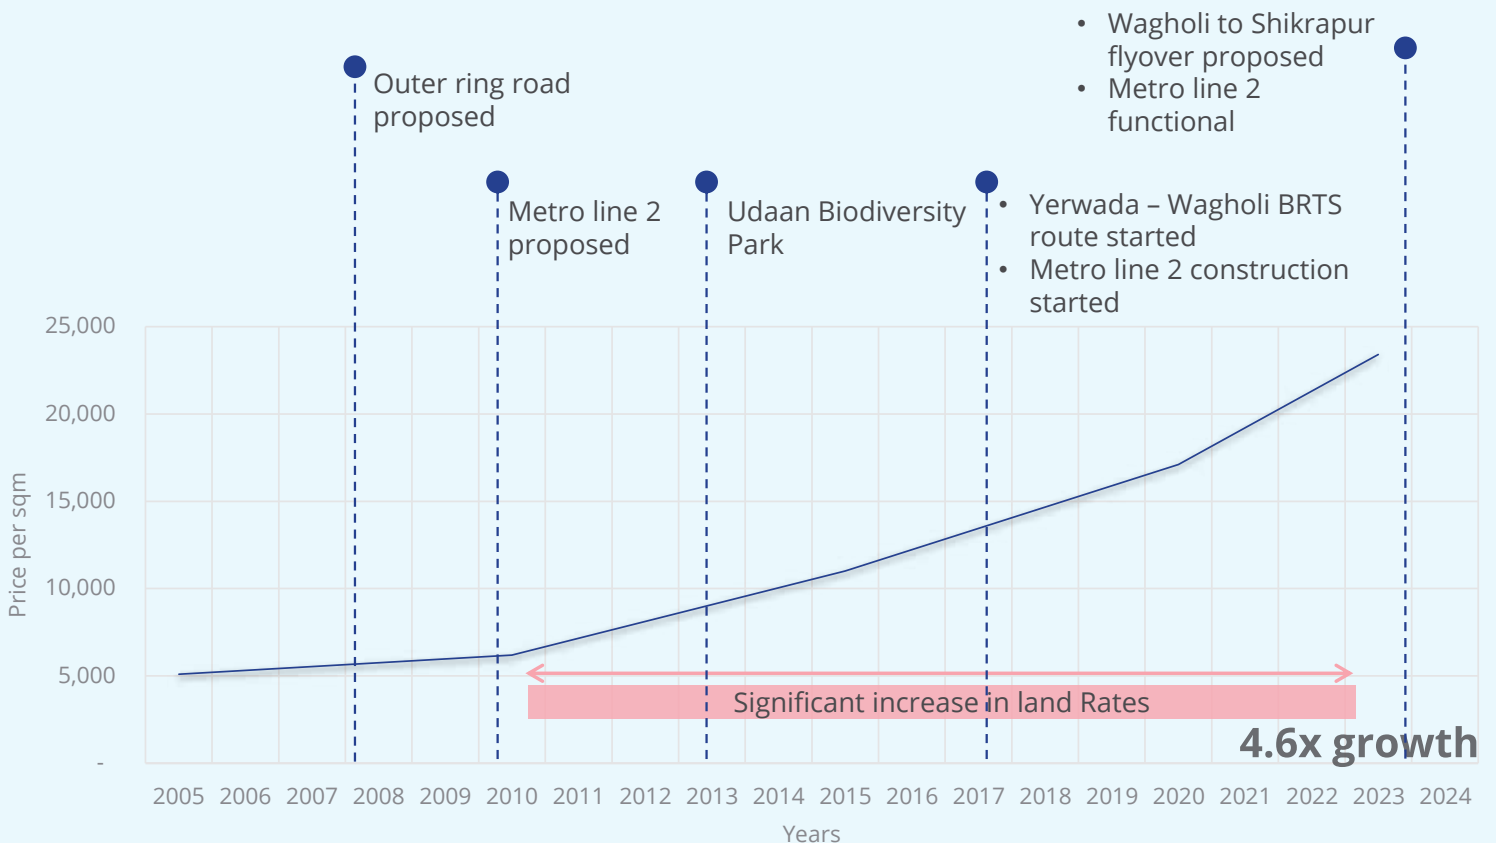

PUNE - WAGHOLI

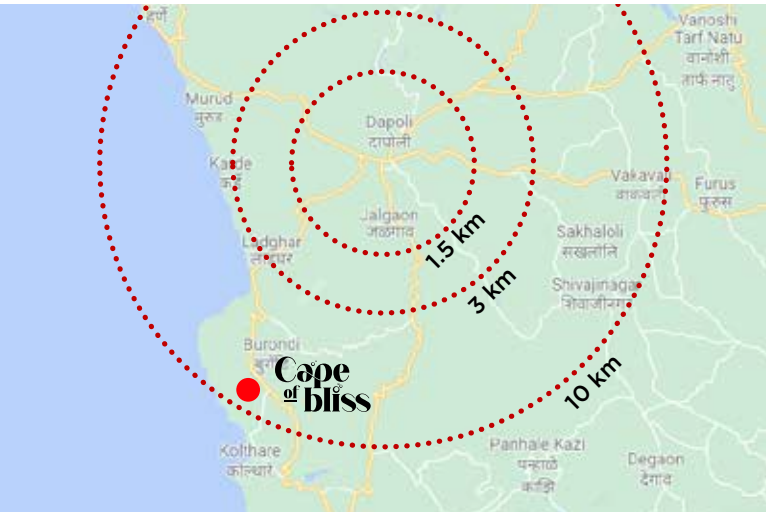

Wagholi enjoys easy connectivity and accessibility to major IT-ITeS and industrial hubs. Well-developed social infrastructure and availability of large tracts of land at affordable rates are the key factors driving real estate growth in Wagholi.

- Post Viman Nagar, Wagholi has been a developing area on the northeastern part of the city.
- Steep rise in market rates are seen post the declaration of metro line 2 and functionality of the Yerwada-Wagholi BRTS route.
- Also, various other social infrastructure developments have led to the significant increase in land prices in the region.

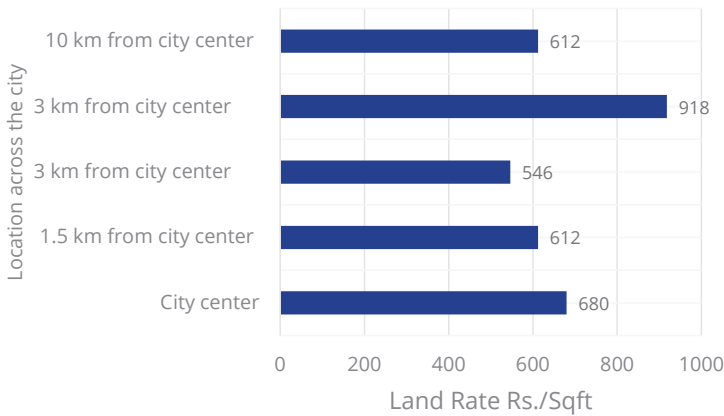

DAPOLI

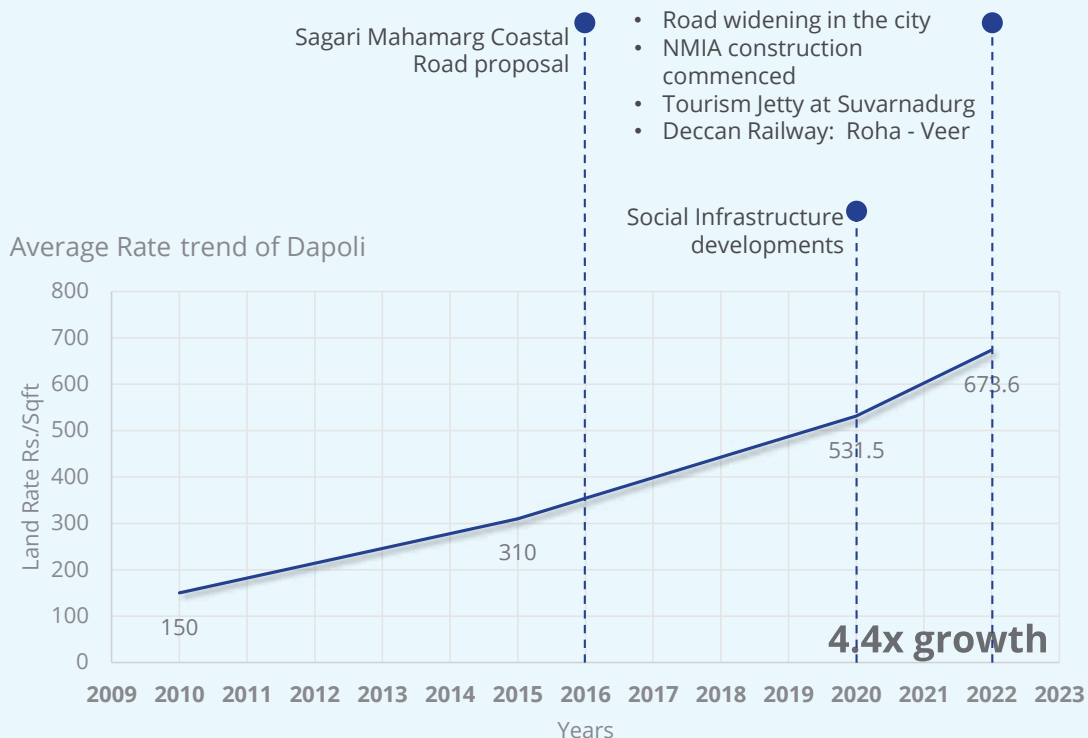

Dapoli is a town in Ratnagiri district, Maharashtra which is also a coastal hill station. It lies south of the state capital of Mumbai.

- Across the city, the center has seen appreciation, due to the connectivity and the core city infrastructure.
- While the highest land appreciation is seen towards developable areas in the direction of the coast and at a close connect to the city center.
- At 10km from the city is the coastal belt, which is developing as hospitality for tourist attractions.

- The investment window for Alibaug started around 2006-2007 when property prices were around INR 300/sq. ft. and people who invested then reaped the benefits.
- Today, buying land in Alibaug is expensive and is mainly for an end-use perspective and may not yield the appreciation it has seen in the past.
- New investment avenues such as Dapoli have come up where the time to invest is NOW!
