PAINTING:

Internal Painting: For internal surfaces, a smooth putty finish is created and covered with a coat of primer, followed by two layers of premium acrylic emulsion paint from a reputable manufacturer to ensure a high-quality finish.

External Painting: For the external surfaces, a blend of natural stone/micro concrete with a textured finish is applied, followed by two layers of exterior emulsion for added protection and aesthetics.

FLOORING:

- The Drawing, Living room, Bedrooms, Dining, and Kitchen areas are furnished with high-quality GVT tiles measuring 1000*1000.
- The Home theatre area features superior quality wooden laminated flooring.
- The bathroom floors are covered with premium anti-skid vitrified tiles, and the walls are embellished with vitrified tiles that extend to the roof height, ensuring an elegant and durable finish.
- The staircase is adorned with granite, which adds a touch of sophistication to the overall design.
- The railing is made of stainless steel and glass, lending an air of contemporary elegance to the structure.
- The balconies feature anti-skid vitrified wooden tiles, combining style and functionality to create a beautiful outdoor space.

KITCHEN:

- Let's make your dream kitchen a reality! We've got you covered with provisions for both municipal and softener water, so you can enjoy clean and fresh water anytime.

- We've also made arrangements for easy installation of a water purifier and chimney, ensuring that you can cook and breathe easy.
- And of course, we know how important a modern and functional kitchen is, which is why we've included provisions for a modular kitchen to cater to all your cooking needs.

- Frame : 8 Feet Height Outer to Outer

- Shutter : 3 Feet Width Outer to Outer

WASH AREA:

- Anti-Skid Ceramic tiles measuring 300x300mm.
- Washing Machine Provision.

PLUMBING-SANITARY:

- The bathroom is equipped with a stylish vanity-type wash basin for added convenience and aesthetics
- A wall-mounted EWC with a concealed flush tank is installed, made by reputed manufacturers such as Duravit, Queo, Kohler, or equivalent brands to ensure quality and durability.
- The bathroom fixtures are fitted with single-lever fixtures with a wall mixer-cum-shower from top manufacturers such as Duravit, Queo, Kohler, Grohe, or equivalent brands, for a sleek and modern look.
- All the C P fittings in the bathroom are chrome-plated and come from well-known brands such as Duravit, Queo, Kohler, or equivalent, guaranteeing high quality and longevity.

ELECTRICAL:

- Use of concealed copper wiring sourced from top brands such as GM, Havels, or equivalent, to ensure the highest quality and durability
- Every bedroom, living room, and dining room is fitted with power outlets for air-conditioners, while every bathroom

- has power outlets and provisions for geysers
- The kitchen is equipped with power plugs for cooking range chimneys, refrigerators, microwave ovens, mixer/grinders, and the utility area has provisions for washing machines and dishwashers
- For your entertainment needs, we've included plug points for TVs and audio systems, among other things.
- Each unit is supplied with 3-phase power and has individual meter boards that meet TSSPCB standards.
- The distribution boards are fitted with miniature circuit breakers (MCB) from Legrand or equivalent brands, and ELCBs from reputable manufacturers.
- The switches and sockets in your home are sourced from brands such as Legrand, Anchor, or GM, to ensure reliable performance
- And for the environmentally conscious, we've even included provisions for Electric Vehicle charging points at each villa.

TV / TELEPHONE / INTERNET:

- Fibre to the home for internet, Telephone and Intercom.
- DTH and TV provisions in Master Bedroom and Living rooms.

To keep you connected, we have provided a conduit for Intercom and Internet in each villa. This means you can enjoy seamless communication

WATER SUPPLY:

- Centralised water distribution through Hydro Pneumatic system for each villa.
- Individual water meters provided.

WTP & STP:

- Domestic water is supplied through a dedicated water softener plant.
- Each unit has its own water meter to accurately track water usage.
- Please note that this is not an RO plant.

- We have also installed a sewage treatment plant within the project.
- This plant has adequate capacity to meet regulatory standards.
- The treated sewage water will be used for landscaping purposes.

ELEVATORS:

- Each villa will be equipped with a 3-passenger traction lift.

POWER BACKUP:

- Uninterrupted power supply.
- 100% power backup in all villas.
- Additionally, we have also arranged for sufficient power backup in common areas.
- This includes parks, street lights, and the club house.

SECURITY SYSTEM:

- Installing solar fencing & barbed wire on the compound wall to prevent unauthorized entry.
- Implementing a sophisticated, round-the-clock security and surveillance system.
- Using boom barriers for efficient traffic management.
- Installing CCTV cameras in identified common areas and the club house.
- Monitoring and recording footage from the security and maintenance office to ensure your safety and peace of mind.
