NATIONAL MARITIME HERITAGE COMPLEX

National Maritime Heritage Complex (NMHC) is an under construction tourism complex near Lothal, which will present the maritime heritage of India. The complex will have museums, amusement parks, educational institute, hotels and resort. It will also recreate Dholavira and Lothal cities in the complex.

The NMHC will be spread over an area of 400 acres (160 ha) including 375 acres (152 ha) for the complex and 25 acres (10 ha) for the staff residential facilities. The NMHC will have 14 galleries depicting maritime history of India from the Harappan era to present.

The NMHC is being constructed near Lothal, an ancient maritime port city of Indus Valley Civilisation. The masterplan was finalised in March 2019. The foundation stone was laid by Prime Minister Narendra Modi on 4 March 2019. The NMHC is estimated to cost ₹3,500 crore - ₹4,500 crore. Architecture firm **Hafeez Contractor** served as the principal management consultant.

Lothal was one of the southernmost sites of the ancient Indus Valley civilisation, located in the Bhal region of Gujarat. Construction of the city is believed to have begun around 2200 BCE. Lothal is situated near the village of Saragwala in the Dholka Taluka of Ahmedabad.

The Lothal site was nominated, in April 2014, as a UNESCO World Heritage Site.

The meaning of Lothal (a combination of Loth and (s) thal) in Gujarati is "the mound of the dead". This is not unusual, as the name of the city of Mohenjo-daro in Sindhi translates to the same.
